Technical Skills

- HTML 5
 - CSS 3
 - JavaScript
 - Python
-

Projects

- **GitHub Profile Finder** [HTML, CSS, JavaScript (REST API)]

Built a web app that can find GitHub users by their username and display basic details about them such as Name, Bio, Followers and their 5 repositories.

- **Latest Movie Lister** [HTML, CSS, JavaScript (REST API)]

A web app that uses TMDB's REST API to list currently trending Movies and show basic summary of movie when hovered.

- **Strong Password Generator** [HTML, CSS, JavaScript]

Simple web app that can generate strong passwords with length up to 30 characters and some customization to add special characters and numbers.
